

**Ergonomics Roundtable of
Sacramento Presents:**

When: **May 12, 2009
9:00-11:30**

Ergonomics and the Aging Workforce

Chris Shulenberger, MS Engr., CPE

Join us for an overview of identifying ergonomic risks in the aging workforce and deciding how best to protect your workers while getting the productivity you need. This is an opportunity to ask the expert about your individual ergonomic concerns.

This Seminar will include:

- ✓ Scope of the Issue and What Industry Can Expect
- ✓ The Good News about Workers >50
- ✓ The Not So Good News
- ✓ Considerations when Designing an Age Friendly Workplace

About Our Speaker...

Mr. Shulenberger is the Technical Director of Ergonomics for Bureau Veritas (BV), a nationwide Occupational Health and Safety services provider. Mr. Shulenberger provides technical oversight for BV's Ergonomics Practice Group and has responsibilities for staff and business development, ergonomics project management, and implementation of consulting services and training programs. He has degrees in Mechanical Engineering from Stanford University and the University of California and is Board Certified as a Professional Ergonomist. He is a member of several professional and industrial organizations including the Human Factors and Ergonomic Society, Institute for Industrial Engineers and the American Industrial Hygiene Association (AIHA). Mr. Shulenberger is a frequent presenter at the AIHA, Applied Ergonomics, and National Ergonomics conferences.

Thank You to our Sponsor...

Since 1991, Office Relief, Inc., has been in the business of selling ergonomic products. Located in San Leandro, California (near the Oakland Airport), they have a large showroom that they invite you to visit. They are the one-stop shop for all your ergonomic needs with the largest selection of office ergonomic products available, ranging from small peripheral items to adjustable workstations.
