

**Ergonomics Roundtable of
Sacramento Presents:**

When: **May 4, 2010
9:00-11:30**

*Disney's Ergonomics Program—
We Have More In Common
Than You Think!*

Joanette Lima, PT, MS, CPE

This program will include discussions on the unique aspects of the Disneyland Resort, the structure of the Safety and Health Department, and how the Ergonomics program has developed and become fully integrated into the Resort's Safety program. Attendees will also see that despite some of the unique aspects such as the culture, and the entertainment aspects, the Disneyland Resort has many of the same ergonomics issues that other public and private entities deal with on a day to day basis. Some examples include: material handling, food and beverage preparation and serving, maintenance and custodial challenges, office ergonomics, dealing with repetitive motion injuries/CalOSHA compliance, the challenges associated with developing and sustaining training efforts, universal design/designing across the age/abilities spectrum, and effectively participating in general design opportunities and working with a variety of teams to effect change within the organization. Challenges, opportunities and successes will be shared.

About Our Speaker...

Joanette Lima is an ergonomist at the Disneyland Resort in Anaheim, CA. Prior to joining the Resort Safety team at Disney in June of 2007 she was a principal in an ergonomics consulting business in Southern CA for 18 years. She is a physical therapist and certified professional ergonomist. She has been working in the field of ergonomics for over 20 years.

Thank You to our Sponsor...

Since 1991, Office Relief, Inc., has been in the business of selling ergonomic products. Located in San Leandro with a large showroom and Sacramento, with a small showroom, that they invite you to visit. They are the one-stop shop for all your ergonomic needs with the largest selection of office ergonomic products available, ranging from small peripheral items to adjustable workstations.
